

NOTICE OF WATER/SEWER BILLING No. 2

Due to technical difficulties during the water meter data collection process, there will be a delay in mailing the first metered billing for the month of April. The first bill was to go out mid-May and now the target is to have the bills sent out by mid-July.

Prior to mailing the April billing, the Town wants to ensure that meter identification numbers are accurate and that meters match billing addresses. We want to make sure that you receive the correct bill. We are now entering the data from our check of water meters and municipal addresses. It is taking us time to verify and enter the data. Thank you for your patience.

Residents that wish to make a payment on their water bill are welcome to visit Town Hall and make a payment on their account, although this is not a requirement. If you do make a payment, the bill that is sent out in mid-July will reflect your payment.

The revised schedule for water bill due dates is as follows:

The April bill that goes out in July will be due August 14th, 2009

The May/June bill that goes out at the beginning of August will be due September 18th

The July/August bill that goes out in the middle of September will be due October 16th

The September/October bill that goes out in early November will be due December 4th

The November/December bill that goes out in early January will be due January 29th, 2010

By the end of this schedule we will be back on track with water billings.

Thank you for your patience with the overall implementation of the water meter program.

Questions may be directed to the Treasury Department at the Town Hall at (705)-429-3844 or e-mail: wasagawater@wasagabeach.com.

If have not made arrangements for the installation of a water meter, please call 429-2540. Please note the flat rate doubled as of June 1st and will increase again September 1st.

Lynn Morton, Treasurer
