I acknowledge that I am required to abide by all Provincial Orders as related to COVID-19 including the current limit on social gatherings of 10 people, and will ensure that no more than 10 people are on the above property at any given time.

Applicant Signature: _____

SAFE PRACTICES FOR HANDLING SECOND-HAND GOODS

If you participate in handling or purchasing second-hand products here are some actions you can take to reduce the risk of exposure to COVID-19.

Garage/Yard Sales

Garage/yard sales are allowed, however there is a limit on the number of people allowed at public gatherings and events, which applies to garage/yard sales. Public gatherings and events are currently limited to 10 people.

If you are organizing a yard sale at your home, limit gathering on the retail space (driveway, yard) to 10 people. Post signs to indicate the 10 person limit, have hand sanitizer available, and do not attend/host yard/garage sales if you have COVID-19, are unwell, or have been in close contact with someone who has COVID-19.

Managing or buying second-hand items during COVID-19:

The main way that COVID-19 is transmitted is directly from person-to-person, rather than through objects. Therefore, the following recommendations are to help prevent person-to-person spread.

- Avoid all close contact with people outside of your household and practice physical distancing (e.g. stay 2 metres (6 feet) away from others at all times).
- Wear a non-medical mask or face covering when physical distancing is not possible. Make sure it fits. Learn how to wear it properly and follow the do's and don'ts.
- Avoid meeting in person if possible (e.g. leave items out for porch pick-up)
- Use digital/electronic or contactless payment services rather than cash.
- Refrain from trying on any clothing while shopping, and limit touching items where possible.

Cleaning and Disinfecting Goods and Surfaces

It is also possible that COVID-19 can be transmitted through objects, as the COVID -19 virus may persist on surfaces for a few hours or up to several days depending on different conditions, such as: temperature, type of surface and humidity of the environment.

- After purchasing an item, thoroughly clean and disinfect it. Avoid buying items that are difficult to clean.
- When possible, clean and disinfect all surfaces of the merchandise; Launder items where possible and dry on the hottest setting possible.
- If items cannot be cleaned and disinfected (e.g. books, paper, fabric) they should be stored for a period of time in a dedicated area or room for at least 72 hours before use.
- Wash your hands after handling items.
