In accordance with the FBCSA and regulations, the purchaser of interment rights must enter into a contract with the cemetery operator, providing such information as may be required by the cemetery operator for the completion of the contract and the public register. The purchaser will receive:

1. A copy of the contract

Opening and Closing of Graves or Lots:

The opening and closing of graves, crypts and niches may only be conducted by cemetery staff or those designated to do work on behalf of the cemetery.

The cemetery retains the right of passage over every grave so that the cemetery operations may be performed effectively.

The cemetery reserves the right to temporarily relocate a monument or marker if required to open and close a lot. The cemetery may also temporarily place the removed soil on an adjacent lot while an interment or disinterment is being carried out. The cemetery will make reasonable efforts to restore all lots after the interment or disinterment has been completed.

Remains must be delivered to the cemetery for interment in a closed casket, rigid container or in a shroud. If remains are delivered in a shroud, they must be accompanied by a rigid carrying tray to ensure transportation to the grave is done in a dignified manner.

The interment and/or disinterment of human remains are restricted between December 15th and June 1st or at the discretion of the Cemetery Operator.

NOTE: No interments will be permitted until June 1st of each calendar year, unless otherwise determined, in order to prevent any damage to the cemetery grounds prior to the ground settling.

Notice Required:

The cemetery requires a minimum of **48 hours' notice** for each interment of human remains, unless otherwise arranged with the Cemetery Custodian/Operator.

Interments or disinterment(s) will not be scheduled on Saturdays, Sundays or Statutory Holidays unless special arrangements have been made and approved by the Cemetery Custodian/Operator. Additional fees may be charged on these days.

The cemetery will make every effort to provide interments as booked, but in the interest of public safety, should an extreme weather event occur that may make the cemetery unsafe, the cemetery operator may be forced to prevent an interment from occurring. Should this occur, the cemetery operator will make every effort to rebook the interment as soon as possible.

Under certain circumstances and by written agreement only, a Funeral Director may, on behalf of a cemetery customer, make full payment for cemetery services and may accept full payment to the Wasaga Beach Cemetery for services.

Authorization, Information and Documents Required for Interment: The following items are required before an interment can take place:

Written Permission of Interment Rights Holder(s): Interment rights holder(s) may be required to provide identification and written direction and authorization prior to a burial or entombment taking place. Should the rights holder(s) be the deceased, authorization must be provided in writing by the person authorized to act on behalf of the interment rights holder in keeping with the *Succession Law Reform Act* (i.e., Estate Trustee or authorized next of kin).

Proof of Registration of Death: A burial permit issued by the Registrar General (or equivalent document for deaths that occurred outside the province of Ontario) showing that the death has been registered must be provided to the cemetery operator prior to an interment taking place.

Interment of Cremated Remains: A Certificate of Cremation must be submitted to the cemetery operator prior to the burial of cremated remains.

Payment: Interment rights and all services must be paid for in full to the cemetery operator before a burial may take place.

- No more than one casket shall be interred in a single grave (single depth only).
- No more than one cremated remain interment shall be permitted with one casket in a single grave.
- No more than four cremated remain interments shall be permitted in a single grave.
- No more than three cremated remain interments shall be permitted in a single niche.

Where cremated remains are interred prior to casket interment(s), all attempts will be made to locate and temporarily remove urns to facilitate casket burials. For better retrievability of the cremated remains, they should be in an urn or container that is non-biodegradable and is not breakable (urn vaults are not mandatory but are recommended). There is no guarantee that cremated remains interred in a biodegradable urn or without an urn vault can be retrieved. The cemetery operator is not responsible if there is an issue or failure with the urn or container and there is a leakage of the cremated remains which may not be recoverable. Cremated remains disinterred in advance of a full body burial will be temporarily stored in a secure location, which will be documented by the cemetery operator. Please also see further provisions under the **Disinterments** section.

Outer Containers/Vaults:

Vaults are highly recommended but are not required.

All vaults must be set up and serviced by the supplier of the vault under the supervision of the cemetery operator.

D. CANCELLATION OF INTERMENT RIGHTS WITHIN THE 30-DAY COOLING OFF PERIOD

A purchaser has the right to cancel a contract for interment rights within thirty (30) days of signing the interment rights contract, by providing written notice of the cancellation to the cemetery operator. The cemetery operator will refund all monies paid by the purchaser within thirty (30) days from the date of the request for cancellation. However, if any portion of the interment rights purchased in this contract have been exercised, the contract is deemed to have been fulfilled and the rights holder no longer has the right to cancel the contract and receive a refund for the rights purchased.

E. RESALE, CANCELLATION OR TRANSFER OF INTERMENT RIGHTS AFTER THE 30-DAY COOLING OFF PERIOD

RESALE OF INTERMENT RIGHTS IS PROHIBITED

The cemetery operator prohibits the resale of interment rights to a third party. If the interment rights holder wishes to cancel their interment rights contract after 30 days, the cemetery operator will refund/repurchase the interment rights at the price listed on the current price list, less any care and maintenance contribution amount previously paid.

The cemetery operator reserves the right to refuse to cancel a contract for interment rights if a portion of the interment rights has been exercised.

Requirements for cancellation of interment rights:

To cancel a contract for interment rights, the interment rights holder must provide the cemetery operator with written notice of cancellation and the interment rights certificate, which must be endorsed by the rights holder(s), transferring all rights, title and interest back to the cemetery operator. The aforementioned paperwork must be completed before the cemetery operator will reimburse the rights holder(s).

Transfer of Interment Rights

The transfer of interment rights may only be made after the interment rights have been paid for in full. With the permission of the cemetery operator and in accordance with these by-laws, the rights holder may transfer the interment rights to another person for no consideration (no money). Transfers must be processed through the cemetery operator, and the following must be provided.

- The interment rights certificate endorsed with the following:
 - o A statement signed by the rights holder selling the rights, acknowledging the transfer to the third-party.
 - o A signed confirmation by the cemetery operator that the person transferring the rights is shown as the rights holder in the cemetery's records. Should the interment rights holder be deceased, authorization must be provided in writing by the person authorized to act on behalf of the interment rights holder in keeping with the *Succession Law Reform Act* i.e. personal representative, estate trustee (executor) or next of kin. A copy of the notarized will or other documentation may be required to ensure the person requesting the transfer is authorized to do so.
 - o The date on which the rights were transferred to the third-party (transferee).
 - o The name and address of the transferee.
- A written statement regarding the lots rights that are being transferred and confirmation that they have not been used.
- Any other documents in the rights holder's possession relating to the rights.
- A copy of the current cemetery by-laws must be provided the transferee.

Once all required documentation and information has been received by the cemetery operator from the rights holder(s), the cemetery operator will issue a new interment rights certificate to the transferee(s), and the transferee(s) shall be considered the current interment rights holder(s) of the interment rights. The resale or transfer of the interment rights shall be considered final and the cemetery's Public Register will be updated.

Administration fee for transfer:

In the case of a transfer of interment rights, an administration fee applies for the cemetery operator to issue a new rights certificate to the transferee. The fee, which is set out on the cemetery price list, is also charged for replacement of lost or damaged certificates.

F. DISINTERMENT

Human remains may be disinterred from a lot with the written consent of the interment rights holder and prior notification to the local Medical Officer of Health. Notification to the local Medical Officer of Health is not required for the disinterment of cremated remains.

In some circumstances, the disinterment of human remains may be ordered by one or more public officials (e.g., Court Order, Coroner's Office etc.) and will take place without the consent of the interment rights holder(s) and/or next of kin.

The cemetery is not responsible for damage to any casket, urn, container or vault which may occur during a disinterment. Additionally, due to the length of time that a casket, urn, container or vault has been interred and the conditions to which it has been exposed, the cemetery cannot guarantee that it can retrieve the complete casket, urn, container or vault interred in the cemetery. Should a new casket, urn or container be required at the time of disinterment, it shall be at the expense of the party authorizing the disinterment. Additionally, the cemetery operator has the right to request that a licensed funeral director be present for the disinterment at the expense of the party authorizing the disinterment.

Disinterment(s) will be scheduled at a day and time designated by the cemetery operator. The cemetery operator reserves the right to close the cemetery or the section where the disinterment is to take place. Only those persons required or permitted by the cemetery to attend a disinterment shall be allowed to enter the cemetery or the section involved during a disinterment.

If reinterment does not take place within the same lot and if existing memorialization (monument, marker, niche front or crypt front) needs to be removed, it will be at the expense of the person authorizing the disinterment.

Once a disinterment has been completed, the lot space shall be considered available to the interment rights holder for a new interment, transfer or resale in accordance with these by-laws. If the grave, niche or mausoleum space from which a disinterment has occurred, is transferred or resold, the new interment rights holder must be made aware of the previous disinterment and agree in writing to such knowledge as part of the transfer or resale agreement.

G. MEMORIALIZATION

No memorial or other structure shall be erected or permitted on a lot until all charges have been paid in full and/or written consent is obtained from the cemetery operator.

No monument shall be delivered to the cemetery for installation until the monument foundation has been completed, and permission has been obtained by the cemetery operator.

A monument, marker, private mausoleum, or other structure shall be erected only after the specific design plans have been approved by the cemetery operator including dimensions, material of structure, construction details, and proposed location.

The installation of small-scale private mausoleums or columbariums (including niche monuments) may affect the total permitted interments within a lot or plot. In addition to the cemetery operator's approval, plans must be filed with the Registrar, BAO. Large-scale projects (15 cubic metres or greater) require the consent of the Registrar, BAO.

The cemetery operator reserves the right to remove at its sole discretion any marker, monument, or inscription which is not in keeping with the dignity and decorum of the cemetery as determined by the cemetery operator.
